Christmas Tree Collection

December 9, 2009

The annual curbside Christmas Tree Recycling program will run from Wednesday, December 30 through Friday, January 8. A separate truck will be picking up your unflocked trees on your regular refuse collection day.

Trees must be cut to no longer than 6-foot length pieces, bundled with string, and set next to containers on your regular refuse collection day. All stands, lights, and other decorations must be removed. Flocked trees will be collected with your regular refuse.

The trees collected during this time will be taken to the City Yard to be chipped and used as mulch. All trees (flocked and unflocked) collected before or after the designated period will be taken to the material recovery facility for recycling.

For further information, call the [General Services Department](#), Monday through Friday, 7:00 a.m. to 3:30 p.m. at (949) 644-3055.
